

## CLARET LANGUAGE SCHOOL (EIC)

At our school, we pay special attention to the acquisition of foreign languages from an early age, especially in listening and speaking skills.

It is essential for us that in the future our students are competent in the understanding and use of foreign languages.

Given the need to provide an important boost to the development of the English language and, with this, to emphasize the presence of our school in our community, the 2018-2019 academic year we launched the Claret Language School, where our students improve and perfect their English (whatever their level) working in very small groups, at flexible noon hours, using dynamic and fun methodologies based on a communicative approach, with personalized attention from the School teacher and also preparing, if they wish, for the official Trinity and Cambridge exams.

The main objective of our project is to ensure that our students achieve their goals in the same school, with teachers who are in permanent contact with their schoolteachers and who, therefore, by knowing their skills well, will be able to take full advantage of them. .

Our teachers are all qualified, with a minimum level of English of C1 and the classes are taught exclusively in English.

A natural and intuitive acquisition of the English language is intended. It is basically an oral activity and includes the continuous expression of the students and the work of listening comprehension (songs, theatre performances, cartoons, etc.).

It should also be emphasized that it is not just working by worksheets, books, etc. and that they don't have homework.
